

COVER LETTER

Dear Hiring Manager,

I am writing to express my interest in opportunities where my experience in IT management, systems development, and enterprise technology leadership can contribute meaningful value to your organization. With a strong background in managing IT operations, developing business-critical systems, and aligning technology initiatives with strategic objectives, I bring a results-driven and structured approach to every role I undertake.

Throughout my professional career, I have led and supported enterprise IT operations, designed and implemented credit and collection systems, and developed web-based platforms that improved reporting accuracy, operational efficiency, and decision-making. My experience spans infrastructure management, software development, vendor coordination, and ensuring compliance with organizational and regulatory standards.

I have also contributed to project-based initiatives involving system design, research and development, and proposal preparation aligned with national strategic goals such as Wawasan Brunei 2035. These experiences strengthened my ability to translate business requirements into scalable, secure, and sustainable technology solutions.

I am confident that my technical expertise, leadership skills, and commitment to continuous improvement would allow me to make a positive impact within your organization. I would welcome the opportunity to discuss how my skills and experience can support your team's objectives.

Thank you for your time and consideration. I look forward to the possibility of discussing this opportunity further.

Sincerely,

Jonaer Casundo
